# FUTURE OF LEARNING IN HIGHER EDUCATION

**30 JUNE 2021, WEDNESDAY, 3:30PM PHT**  
LIVE VIA UPOU NETWORKS

Education system at all levels across the globe has been experiencing a rapid sea change especially during the pandemic. The current landscape certainly seems to suggest that educators will be challenged to think beyond traditional models if they want to keep pace. This international webinar deliberates on Future of Learning in Higher Education and identify the possible areas for collaborative research and development.
