

Building sustainable communities through learning

The Learning Festival:

Driving Local Action on Sustainable Development Goals for Long Term Impact

Join panellists from Cork and Limerick (Republic of Ireland), Wyndham (Australia), and Durban (South Africa)—members of the UNESCO Global Network of Learning Cities and the PASCAL International Observatory's Learning Cities Networks (LCN)—as they share over 28 years of collective Learning Festival experience. This webinar aims to facilitate learning and the exchange of experiences among learning cities. Moderated by Adult Learning Australia, the session will feature an opening address from PASCAL International Observatory.

UNESCO's Institute of Lifelong Learning highlights learning celebrations as a key feature of learning cities. In addition to contributing to the achievement of the UN Sustainable Development Goals, Learning Festivals provide opportunities for a broader range of accessible learning.

Thursday 18 July 2024

**7.00 pm AEST (Melbourne)
10.00 am IST (Cork)
